

RFP: EERMC-2022-03

Question Received on 7/29/2022

Question and Response:

1. *Section 3.4 (Scoring) notes that a **bid alternate price** must be included in the cost proposal. Based on our reading of the RFP, it appears there is no bid alternate task included in the scope of work. If possible, I want to confirm that this is correct and that a bid alternative price is **not required** with the RFP submission.*

A bid alternate price is not required with the RFP submission. The RFP was amended to remove the bid alternate price from the list of submission requirements in section 3.4.
